

Growth With Income Portfolio

Investment Objective: Growth With Income Portfolio is a diversified portfolio that invests across several screened investment products within Fixed Income, U.S. and International Equities, as well as Real Estate. The goal is to generate a competitive return and current income while seeking to preserve capital over the long-run.

Growth of a Dollar (5 Years)

Note: The results displayed do not reflect the direct investment management of client assets. The total portfolio results are compiled using the asset-weighted net returns of all underlying investment managers. The results are shown gross of other advisory fees. The results shown include the reinvestment of dividends and other earnings. Past performance is not indicative of future results and the performance of a specific individual client account may vary substantially from the median result shown in part, because of specific managers, timing, risk tolerances, and allocation differences.
